Final Triple P Parenting Groups

They are offering both in person AND virtual (WebEx) sessions however they will be giving priority to those who reside outside of Yorkton to attend the virtual groups.

Please note that these will be the final groups until fall. They will be running the Discussion Groups throughout June—beginning of September before our groups start again. Something else to keep in mind that due to Covid, there are other options that allow parents to access the courses from home, still having regular contact with a Triple P Practitioner. This is a case by case basis. Triple P Online, which is free for all Saskatchewan residents. Parents can access this on their own from www.triplep-parenting.ca . This is a self paced, independent program that does not allow access to a Triple P Practitioner. Parents have access to their account for 365 days.

Thank you, have a great day and stay safe.

Jamie De Vos

Triple P Manager

Yorkton & Fort Qu'Appelle

News from the Principal's Desk...

March has quickly come and left us. With Easter just around the corner we continue with face to face instruction unlike many other schools in the province and some other schools in the division.

Block 4 started the first week in March and term 2 ended for our grade 5-8 students a couple of weeks ago. Teachers and students are continuing to manage the regulations placed upon us due to the virus. We are doing a great job in maintaining our own duties to keep our face to face instruction a reality.

In March our grade 9's made quinzees outside. The young students admired them for a few days and our Wildlife class also made one quickly before the snow melted. The Art 20/30 class had some beautiful decorative Easter egg designs, and some creative paintings on our ceiling tiles.

The month also brought about our second parent interviews of which were conducted virtually. This was only for our grade 5-9 parents and we will conduct grade 10-12 parent interviews in April. If any parents missed a chance to discuss their child's classes with the teacher, they may call the school at any time or message our teachers through the EDSBY portal. All of our report cards are now generated for online delivery. Parents of grade 5-9 students will be able to see the report card on EDSBY as well communicate with the teacher. Parents of grade 10-12 students will also be able to access the report card and the gradebook on EDSBY. Once again, if you should require assistance with this, please contact the office.

The SCR organized a spirit week from March 15th-19th. We had some "wacky hair", twin day and lots of green on the 17th. I think the kids had fun dressing up on those days.

Mr. Serdachny has made great strides in design, cost building, and grant writing for a huge garden and kitchen project at our school. He has applied for many grants to try and secure some funding for these projects. It will take some time and plenty of money to get it up and operational within the next couple of years. We are hoping to make some small strides by this spring to try and incorporate the garden piece of the project and integrate some of our instruction outside. The garden project will allow students, staff and the community to work as a whole to implement, maintain, and sustain it for the future.

Thank you for your support so far this year. From all of us here at CCS, we wish you a Happy Easter holiday!

Kim Eiteneier, Principal at CCS
